# TO OUR SUBSCRIBERS

Attorney-General's Department and Mounted Police to Stop Evil.

WHOLESALE LICENSE ON JASPER AVE. SUSPENDED

City Physician Being Proceeded Against for Improperly Recommending Permits

Notwithstanding the stringent regulations governing the taking of liquor into the north country, where there are no licenses, it is thought by the mounted police, who have complete control over the matter north of the fifty-four parallel, and by the liquor license branch of the attorney-general's department, which is exercising every precaution to minimize the evil, that there is no creeping in.

The only legal way to take or have liquor in the north is by virtue of permits issued by the liquor branch on recommendations made by physicians, and so great has been the demand for these permits that the liquor branch has made extensive enquiries, with the result that the wholesale license of the Western Wine and Spirit company, Jasper avenue east, was suspended temporarily on Monday, pending the sitting of the board of liquor commissioners, which took place in the juvenile court room in the court house this morning.

At the sitting the suspension of the license was continued pending the hearing of the case which has been instituted by the mounted police against Dr. W. D. Chapman, on whom apparently has fallen the misfortune of being the physician picked out to stand the brunt of the blame for what is stated to have become a very common practice, namely, that of issuing recommendations to people who wish to secure permits from the attorney-general's department.

Dr. Chapman has been summoned to appear at the mounted police barracks Friday morning. The prosecution will try to prove that the recommendations made by him were improper ones, although it is more as a matter of fact that the proceedings are being taken, as it is thought that physicians do not in many cases exercise proper care, and recommend that permits be given to nearly every one that applies.

The matter is attracting wide attention, and the "man on the street" is as a rule of the opinion that the license system which has at least not the name of a permit system, should be extended to parts of the north, as settlements take place.

An application for a re-hearing of the case of the Union Traders company, which was refused a license for a wholesale store at the corner of Alberta and Sinclair, was not granted.

A new application for a hotel license at the corner of the C.N.R. and Saskatchewan line, was also made, but it was not recommended because there are not enough residents in the vicinity.

Japan has about fifty million people, which means a considerable number left for Alberta, would they all begin to eat bread made of wheat flour instead of rice. China is also leaning towards the great staple, wheat, of late, and her population is increasing rapidly, 200 million, or more than all of Europe and America put together.

Will the money bylaws be approved by the ratepayers on April 6th? This question was asked Mayor McNamara, who replied he stated that he was tiredly up to the property owners of the city now. "The administration has considered very carefully the program of work and in view of the recent money stringency nothing but prime necessities have been allowed to creep into the estimates," said his worship.

In fact, I cannot see how those who have any pride in the city, would be ready to vote against the money bylaws this year. The most important and one of the latest items asked for, was the new central police station and fire hall, which will cost over \$250,000, and this is urgently required now."

## CARRANZA APPOINTS COMMISSION PROBE THE BENTON MURDER

Nogales Sonora, Mexico, March 4.—A commission to investigate the Benton case was appointed late night by General Carranza. The decision was taken after a long session of the provisional cabinet. It was said that the death at Juarez of the British subject, Benton, has occupied practically all the attention of Carranza and his advisers.

## ABERTIA TO SHIP WHEAT TO PRINCE RUPEL TO JAPAN

Representative of Japanese Government in City to Knock Cost of Living.

THINKS MOST OF CEREALS CAN BE GROWN IN PEACE

Can Ship Via Canadian Port Much Cheaper Than From Portland.

Takuro Hyuma, a representative of the government of Japan, is in the city. He is looking over this country with a view to have his country take steps to have more Canadian wheat shipped over to the Orient so that the people of Japan can live more cheaply and at the same time enjoy wider variety of foods.

"Rice in Japan," he said yesterday, "costs us from six to nine cents a pound which we can get in Canada at about half that price. We would ship your wheat in much larger quantities than the rice for the reason that our people as a rule do not know how to bake the flour into bread."

"I was very much struck with the system of domestic science instruction you have in the schools of Alberta, and I think there may be many openings for graduates of your classes to teach domestic science in Japan. If we could only get our people to make bread like you do here, certainly flour from wheat would supplant rice as the staple article of food in Japan."

Mr. Hyuma stated that he also would probably get most of his wheat from the Peace River country, via Prince Rupert. They could ship the wheat through the port of Seattle, Portland or Vancouver. He also said that the Japanese are aware that the quality of the northern grown wheat is much superior to that of the wheat of the United States, which they have been experimenting for the past few years. Portland, Oregon, has been a store at the corner of the G.T.P. to the coast, Prince Rupert will become the greatest wheat and flour shipping point in America, as far as Asia is concerned, it being the nearest railway terminus on the Pacific coast to the great Peace River country, and the nearest to the ports of Asia.

Japan has about fifty million people, which means a considerable number left for Alberta, would they all begin to eat bread made of wheat flour instead of rice. China is also leaning towards the great staple, wheat, of late, and her population is increasing rapidly, 200 million, or more than all of Europe and America put together.

Will the money bylaws be approved by the ratepayers on April 6th? This question was asked Mayor McNamara, who replied he stated that he was tiredly up to the property owners of the city now. "The administration has considered very carefully the program of work and in view of the recent money stringency nothing but prime necessities have been allowed to creep into the estimates," said his worship.

## SICK SETTLER AND FAMILY ARE DYING FOR WANT OF FOOD

Pathetic Letter Received by Capital Asking Assistance for Woman and Kiddies

NO HOPE HELD OUT FOR RECOVERY OF WOODRUFF

Gainford People Form Committee to Raise Funds to Buy Necessities.

The following letter has been received from John Jones, Justice of peace at Gainford, Alberta, who is making an appeal for help for an unfortunate settler and his starving family. The father of this family is not expected to live and his wife and three little children were dependent on him and now that he is unable to provide for them they depend entirely on the charity of others. It is because of this that Mr. Jones sends the following letter to the Capital:

Sir,—As the only way to receive help for a settler who is in such a state that he is dying without food and medical attention, and I know that your paper stands for everything that is noble and good, I beg to inform you that Mr. W. T. Woodruff, aged 54, his wife aged 40 and three children ranging from 18 months to seven years, located near Round Lake, T. 53, R. 6, west of fifth meridian, is in a destitute condition. The man has been sick for some time. About two months ago he took a turn for the worse and as he is the only support of the Woodruff family, they are now in a desperate condition. The noble wife of the unfortunate man is exposed to the struggle against cold and hunger, being left without a man's helping hand, yet she has struggled along with her children and sick husband. So long as she could get any food, she struggled along as best she could and provided some kind of a meal for the family. But the time came when she was left alone with her children and sick husband, and she was unable to provide for them. The neighbors being aware of the conditions gave what help they could but so many of them are out of the way to day that they could not do very much for the starving family. Some time ago we got together and raised some funds by giving a basket of food for the sick man's benefit. We also got together and raised some funds by giving a basket of food for the sick man's benefit. We also got together and raised some funds by giving a basket of food for the sick man's benefit.

Any old clothing for the children and wife of this unfortunate man would be welcomed.

JOHN JONES, J. P.

MEETS INDUSTRIAL ASSOCIATION VIEW OF AMALGAMATING

THE EDMONTON INDUSTRIAL society will meet tomorrow night at 8 o'clock in the office of Geo. M. Hall, industrial commissioner, in the Civic block, and one of the principal questions to be discussed will be the proposal to amalgamate with the Edmonton Industrial association for the purpose of working together in city beneficial work. Representatives of the latter association will be present. T. B. Morrow, of the Avonmore nurseries, will address the meeting in honor to lay out a garden, which should prove interesting to everyone at this time of the year except the winter months.

Washington, March 4.—President Wilson will personally address a joint session of congress tomorrow, advocating the ratification of the Hay-Panama Canal Act, which exempts American coastwise shipping from the Panama tolls.

## LITTLE HOPE FOR ACQUITTAL OF MRS. BUFFUM

The friends of Mrs. Cynthia Buffum, of the Falls, N. Y., on trial for the murder of her husband, exterior with hope that she will be acquitted. The fact that the confusion of the murder alleged to have been made by her while in the company of detectives at

Bill Incorporating Bank of Alberta Passed by Commons

Ottawa, Ont., March 4.—Another new bank was put into being today when the bill providing for the incorporation of the Bank of Alberta passed the Banking Committee of the Commons.

The bill as originally drafted gave to the new institution the name "The Bank of Edmonton," but strong representations were made in the committee to have this changed to "The Bank of Alberta," and the committee approved. Hon. W. T. White said that personally he was opposed to the change in the name, his view being that banks should not in any way be identified in name with the dominion or provincial government. However, there was a majority of the committee favorable to the request which carried by standing vote. It was made clear to the committee that the men who are behind the new bank are strong financially and the services of a prominent Canadian banker have been secured as general manager.

FRENCH STEAMER WAS RESPONSIBLE

Privy Council Supports View Taken by Nova Scotia and Supreme Court

London, March 4.—The privy council today supported the judgment of the Nova Scotia court and the supreme court of Canada, who found that the French steamship St. Pierre Miquelon was alone responsible for the collision between herself and the steamship Renwick in December, 1911.

## RUSH HAS STARTED: FIRST IMMIGRANTS OF THE YEAR ARRIVE

Montreal, March 4.—The first spring influx of British immigrants bound for the Canadian west arrived at Windsor station yesterday from Halifax, where they had disembarked from the steamship Empress. They numbered about 1,600.

MIDDLE WEST AND EAST PEOPLE ALL TALK OF ALBERTA

Cornwall Returns From Trip to Interest More Capital in Ventures.

ON ARRIVAL HITS BEST WEATHER SINCE HE LEFT

Says North Country Has Put Edmonton on the Map to Stay.

"We're on the map now," said J. K. Cornwall, who returned last night from the east, where he has been doing some more Alberta boosting. "This city is now on the map, by virtue of the great country at its back. It is on every body's lips down to eastern Canada and in the states, and the reason they have so much faith in Edmonton is because they have heard something of the Peace River country."

WELFARE LEAGUE NAMES SECRETARY

D. L. Davidson of City Gets Position Out of Large Number of Applicants.

At a meeting of the Edmonton Welfare League held last night in the office of Industrial Commissioner Hall, the committee secretary was appointed.

There were a number of applications for the position, one of the aspirants being a man from the west, but the appointment went to D. L. Davidson of Edmonton. A committee of three was appointed to select the secretary.

First Naval Fight of Mexican Civil War Has Commenced

Nogales Sonora, March 4.—The expected naval battle—the first in the history of Mexican civil warfare between the rebel gumbat Tampico and the federal warships—began at Tampico today. It was reported here that the Tampico fleet inside the harbor of Tampico, which exchanging shots with the federal vessels which were some distance out in the Gulf of California.

## SHACKLETON REFUSES TO CO-OPERATE WITH THE AUSTRIAN PARTY

London, March 4.—Sir Ernest Shackleton, the antarctic explorer, declines either to admit priority for the Austro-Hungarian party or to agree to any plan to use the Weddell Sea as a base on his proposed trip across the South Polar continent. In a letter to the Austrian party, which he claims were long since made and also refused to co-operate with the Austro-Hungarian party.

SHACKLETON REFUSES TO CO-OPERATE WITH THE AUSTRIAN PARTY

Switzer & Co., Edmonton, Alta; Jetties Clear Store, Edmonton, Alta.

Readers of The Capital are requested to favor the management by reporting any irregularities in delivery.

## THE UNASSAILABLE ARGUMENT AGAINST FEDERAL CONTROL.

"With the inroads being made upon the spruce resources of United States," says the Printer and Publisher of New York, "it is foreseen that these will be exhausted within twenty years," and the Publisher details the results of experiments being made with Alaska fir in the hope that from that source may be drawn a supply of pulp wood to meet the steadily increasing demands of the United States newspapers for news print.

This situation on the other side of the line, were the resources of Alberta given intelligent handling, could be made use of to the tremendous advantage of the settlers going into the northern and northwestern section of Alberta.

In this province are millions and millions of acres of fertile land more or less timbered with spruce and poplar, the ideal pulp wood. The settler who takes up such land is confronted with the task of getting the timber off the land, and generally he burns it. In the newer sections of the province of Ontario, where pulp mills have been established, settlers find an immediate market for pulp wood at rates varying from \$3.50 to \$5 per cord, and the mantle of timber, instead of being a liability, is an asset, the returns therefrom being almost sufficient to buy the settler's equipment and start him up in business.

There is also presented, in the pulp wood possibilities of this province, the opportunity for settling the unemployment problem which recurs every winter with increasing severity.

The fact that the dominion government fails to give such an obvious opportunity any intelligent attention furnishes the absolutely unassailable argument against the retention of these resources under federal control.

## A REMARKABLE EVIDENCE OF WILSON'S STRENGTH

Dispatches from Washington indicate that President Wilson will score another triumph in the matter of the abolition of the tolls exemption for the Panama canal.

As an evidence of the personal strength of the president and of the fullness of any interest attempting to totally ignore public opinion, the Panama incident is unique.

In the commencement, the exemption from tolls for United States coastwise shipping was urged and lobbied through the house and senate by powerful shipping and railroad interests in United States. The law was a flagrant violation of the Hay-Pauncefote treaty and was almost unanimously recognized as such, but the interested interests proposed to compel the arrangement suitable to them notwithstanding.

When Wilson came on the scene he found even his own party in the house and senate opposed to the repeal. But he took the ground that the arrangement was wrong and insisted that as a matter of national integrity it should be set right.

Wilson wins, and the triumph is a remarkable evidence of Wilson's strength.

## A BRAVE DISPLAY OF CHEERFUL NERVE.

It is generally very difficult for a conservative government to find a reason for doing what it wants to do. Over in British Columbia the McBride-Bowser combination has just shown an additional guarantee of \$10,000 a mile on the C. N. R., making the total of their guarantee through the mountains \$45,000 a mile, and the reason given is that the C. P. R., by double-tracking their main line through the mountains, creates conditions of competition which require the Canadian Northern to build a better road than they had anticipated in order to compete. Therefore they ask the government to come to their rescue lest the rival railway work them out.

There is at least one obvious conclusion about this brave display of effrontery, which is, that if there is a more cheerful nerve anywhere in the world than that of the railway promoters behind the Canadian Northern it is that enjoyed by the McBride-Bowser bunch.

## THE EASIEST WAY TO ABOLISH SAM HUGHES

According to Colonel Sam Hughes, every man in Canada should be compelled to drill or pay. As the honorable colonel sees it, the preparation for and constant contemplation of war is the one thing which should be forced on all citizens, whether they are willing or no.

Considering that Canada has been built on a peace footing, and that not one man in a thousand ever expects to go to war, the Hughes proposal looks like the one that would certainly abolish Hughes. To the busy man who is busy with his business, or to the working man who requires all his time to make a living for his family and furnish them with a home, the arrangement by which a number of weeks would be taken compulsorily out of each year would be the most unpopular arrangement which any government could commit itself to.

## THE INTERESTS AND THE INFLUX

In opposition the conservatives declaimed loudly against the Laurier government for having failed to make Asiatic exclusion absolute. In power their attitude is favorable to Asiatic immigration.

The interests which profit by the influx of Asiatics are the cannery combine and the lumber trust. Both these interests are distinctly favorable to the conservative party. The vote face needs no explanation.

# MOTHER! IT'S ORIEL OR CALCEOL TO FORCE INTO A SICK CHILD

'California Syrup of Figs' can't harm tender stomach, liver, bowels.

Look back at your childhood days. Remember the "physic" that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing give "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful given today saves a sick child tomorrow. It should be the first thing in the house it always does good, never any harm.

Ask your druggist for a 50 cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Beware of cheap imitations. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

## TODAY'S BIRTHDAY PARTY

Brand Whitlock, New

Diplomat, 45 Today.

Brand Whitlock, who won an international reputation as an author, reformer, mayor of Toledo and political leader of "Golden Rule" Jones, and who recently essayed the role of diplomat as Uncle Sam's minister to Belgium, was born in Urbana, Ohio, forty-five years ago today. This information in regard to Mr. Whitlock's diplomatic post is offered with assurance, despite the statement recently made in a New York paper that the ex-mayor of Toledo is the newly-appointed ambassador to Sweden—a job held by Mrs. Harris.

The distinguished novelist, lawyer, city official, essayist, journalist, magazine writer, poet and diplomat was the son of a clergyman of the Methodist faith, the late Rev. Dr. Elias D. Whitlock, who died in Cleveland last December. He was educated in the public schools, and at the age of eighteen entered the Fourth Estate as a reporter on a newspaper in Toledo, where his father then occupied a Methodist pulpit. At twenty-one Mr. Whitlock received a call to the larger field of Chicago journalism, becoming a reporter and afterward political writer on the staff of the Chicago Herald. It was while engaged in "social" politics for the Herald that he began to study the sociological and economic causes of the graft, corruption and dishonesty which he found in the political circles of the Cook county metropolis.

In Chicago Mr. Whitlock associated with a bunch of newspaper "boys" that included Finley Peter Dunne, George Ade and many others destined for fame, and he was a member of the immortal Whitechapel club, a novel organization of newspapermen, since deceased. In 1892 he became a clerk in the office of the Secretary of State of Illinois at Springfield, and there he met John P. Altgeld, the German-American statesman and reformer, who has been so bitterly maligned because of his radical opinions and his pardon of the anarchists. Whitlock's friendship with Altgeld, and the light he has thrown on his mind and motives and methods, have done much to rehabilitate the memory of the dead Illinois executive. In Springfield Mr. Whitlock married Ella Brandner, a niece of Samuel M. Jones, world-famous as the Golden-Rule man. He was in Illinois capital too, that he wrote his first short stories, and there he studied law under John M. Palmer and was admitted to the bar in 1894.

In 1897 Mr. Whitlock returned to Toledo and hung out his legal shingle, and there he came under the influence of Samuel M. Jones, world-famous as the Golden-Rule man. He was in Illinois capital too, that he wrote his first short stories, and there he studied law under John M. Palmer and was admitted to the bar in 1894.

In 1902 Mr. Whitlock wrote his first novel, "The Thirteenth District," called by William Dean Howells the best novel of American political life ever written. In 1904 he published two other novels, and ran for mayor of Toledo as an independent anti-machine candidate, and was elected. He was re-elected under the same conditions in 1907, 1909 and 1911, and might have become perpetual mayor of Toledo if he had desired. Mr. Whitlock's novels, stories, essays and poems have been translated into many tongues, and the Toledo man has a multitude of admirers in all parts of the world. Mr. Whitlock's new diplomatic job at Brussels pays \$12,000 a year.

## HEALTH

The goal of success. Dr. Metzger's Vitalizer. Battery—that most phenomenal of all medicines. It restores life, strength, and energy and restores the system to its normal state. Wonderful effects in the most extreme cases of weakness, nervousness, and general debility. It is the only medicine that will give results. No charge for a trial. Write for a free trial. Sold at a low price. No charge for a trial. Write for a free trial. Sold at a low price. No charge for a trial. Write for a free trial. Sold at a low price.

## THE METZGER VITALIZER BATTERY CO.

Department of Health, 288 Eighth Ave. East, CALGARY, Alta.

Robert Emmet's Birthday. Will be Celebrated Today. No other name has so powerful an appeal to the Irish heart and imagination as that of Robert Emmet, whose birthday will be celebrated today in the homes of Irish Catholics everywhere. Sons of the Old IRA on this side of the Atlantic will be no less enthusiastic in their commemoration of the day than those of the Emerald Isle. Now that the dream of Emmet and his followers is nearing realization, the observance of Emmet day has gained added significance.

Robert Emmet was born March 4, 1778, in Moleworth street, Dublin. He was the son of a physician. By birth, he was an Irishman, but by education and social affiliations, he was an Englishman. The Emmet family had all its life been nothing to gain by joining in the adoption of an unpopular cause, while Robert died on the gallows and his brother Thomas spent many years in prison.

Robert Emmet's remarkable gifts as an orator were first displayed at Trinity College, Dublin, where he was a student. He was expelled from the college for his principles that he was expelled. Soon after that he became acquainted with Sarah Curran, daughter of the Irish barrister, and commenced the life that was so soon doomed to extinction. Emmet's love affair has furnished inspiration to Moore, Southey and Washington Irving.

Emmet's natural ability soon made him the leader of a movement for the overthrow of English rule in Ireland. Military deeds were established in Dublin, and the plan was laid, but an explosion in the street's ammunition depots revealed the plot before Emmet and his followers had time to escape. Emmet escaped to the Wicklow mountains, but, because of love and the longing to hear Sarah Curran's voice drew him back to Dublin, where he was discovered and arrested.

In September, 1803, Emmet's immortal trial began. He was convicted of treason, felony and sentenced to be hanged. His death speech ranks as the most remarkable ever delivered by a political prisoner under the shadow of the scaffold.

"I have but one request to ask at my departure of this world. It is the charge of silence. Let no man write my epitaph, for as no man who knows my motives and aims will write me, let not prejudice nor ignorance asperse them. Let them and me remain in obscurity and peace, until other men and other times can do justice to my character. When my country takes her place among the nations of the world, let my name be written on the scroll of her glory."

The scaffold on which Emmet suffered martyrdom was the death of a martyr. Temporary affairs formed of boards laid over empty barrels. Emmet was decapitated by a guillotine. He was buried in his friends. The place of his burial is not certainly known, some believe that it is in the Old Glasnevin cemetery, while others are as firmly convinced that the bones of Emmet rest in the churchyard of St. Mary's.

With peace and nationality secured to Ireland under the free folds of the British flag, the monument to Emmet in his native city of Dublin may now be inscribed:

"He had lived for his love, for his country he died."

## FIRST THINGS

St. Paul. The first settlement on the site of St. Paul was made in 1838, when a French-Canadian hunter, a rule cottage which was to serve as the nucleus of the future capital of Minnesota. The city of St. Paul was incorporated 60 years ago today, March 4, 1854, gaining its name from its first church, St. Paul, built in 1841 by Father Gaultier.

French-Canadian, Catholic priest, Minnesota, first explored by Frenchmen from Canada, had a varied history after coming into the possession of the United States, and at one time or another portions of the future state belonged to the Upper Louisiana, Michigan, Illinois, Wisconsin and Iowa. French, Scotch, Swiss and Swiss traders and settlers made up the population when the Stars and Stripes were first hoisted over the country. In 1848 a convention was held at Jackson's store, in St. Paul, to petition for a separate territory government for Minnesota, and in the following year the territory was created with St. Paul as the capital, the first legislature meeting at the Central house. St. Paul then had 18 houses, but the growth was rapid, and the city, though it has been outstripped in the race for supremacy by the twin city of Minneapolis, which was incorporated in 1867.

Two Years For Perjury. Macleod, Alta., March 4.—Two Bellevue miners, Vance Labala and Mike Huppin, were yesterday sentenced to two years less one day and six months respectively for perjury.

## FATHER DRUMMOND SPEAKS AT OPENING OF LENTEN MISSION

The Lenten mission at the church of the Sacred Heart opened on Sunday evening under auspices that promise well for its success. Drawn to the mission of the preacher, Rev. Father Drummond, whose eloquence is noted among church goers from Atlanta to Pacific, there was a congregation that taxed the seating capacity of the church.

The sermon was listened to intently. With his mingled scholarship and practical common-sense, it was an admirable sermon, and at the occasion first of all the importance of saving souls was dwelt upon.

Not was this matter of saving the soul one of small importance, as some men seemed to think. It was the principal thing in life. Nothing else really mattered in comparison with the salvation of the soul.

"We must face facts," said the preacher. "If we do not save our souls we shall lose them. How awful it will be to lose our souls it is difficult to amount. Perhaps the nearest approach to an idea of it can be got from that saddest of all life's tragedies, the death of the father who has left behind him a beautiful and brilliant son. When we speak of her we say she is one of the lost, for humanly speaking she is no longer there. But our human estimate is wrong. There are many cases where these fallen women are at the last moment and receive the grace of God, and eventually enter heaven. There is always hope for the fallen woman, but for the man, the sinner in hell, there is no hope."

"To love and serve God is the greatest aim we can have in life. Human love is often fierce, and often those whom we love do not love us with God in it. Therefore, the man who wants the love of God can have it. Keep my commandments, said our Lord. That is what we have to do to show we love Him."

"You hear it said in some parts of the world that the women go to church. They know better than the men. Very often they have a great deal more moral courage. The men, when they stop away from church, often do so for fear of what the boys will say. But women will go because they feel it to be right. Women followed Jesus Christ on the path to Calvary. And don't forget that in Christ's hour of trial the one person in the world who stood by Him was a woman—His wife."

The mission will last a fortnight, and there will be services each day at 8:30 in the morning and 7:30 in the evening. The first week is for women and the second for men. There is a short sermon at each service.

## STEEL CARS AGAIN SAVE THE LIVES OF MANY PASSENGERS

Chicago, Ill., March 4.—The "Grand Trunk" train, which was wrecked on the freight train in the city yards today, killing a freight train, was saved by the steel cars. The passengers were injured by the freight train, but the steel cars saved the lives of many passengers.

Marley Brown, of Chicago, brakeman on the freight train, died in the ambulance. James Brown, Chicago, conductor of the freight train, sustained internal injuries.

Mrs. J. J. Jump and Mrs. S. F. Finkington, both of St. Paul, Minnesota, were injured by their hotel in automobile. They are said to be suffering from fright and shaking up. The passengers' train, which was wrecked, was the freight and the wreckage took fire.

Rowing With Oxford. London, March 4.—G. B. Taylor, Toronto University and Trinity College, rowed his boat in the Thames on Saturday. He was rowing No. 2 with the Oxford crew on his training at Henley on Thames for the March 28 boat race to be rowed from Putney to Mortlake on Saturday, March 28.

Want Laws Modified. Calgary, March 4.—Eighteen thousand names of citizens have been gathered by the petitions being circulated by the confectioneries section of the retail merchants association in an effort to have the present Sunday selling laws modified by the attorney general's department.

## WAS TROUBLED WITH BOILS AND CARBUNCLES.

There is no more frequent source of illness than that arising from blood impure, for when the blood becomes impure, it is so only natural that boils, carbuncles, or some other indication of bad blood should break out of the system.

Boils in themselves are not a dangerous trouble, but still at the same time are very painful, and the only way to get rid of them is to cleanse the blood of the impurities. Cleanse it thoroughly by the use of Burdock Blood Bitters, that old and reliable blood medicine that has been on the market for nearly forty years.

Mr. James Wilds, Plaster Rock, N. B., writes: "I was greatly troubled, for years ago, with boils and carbuncles, and the doctor told me I was in a bad condition. My appetite failed me, I began to lose strength, and was pretty well run down when one of my friends recommended Burdock Blood Bitters. After using three bottles I began to feel like another man. My troubles soon left me, and today I can certainly give Burdock Blood Bitters a high recommendation to my friends."

## No Siftings or Sweepings

Nothing But Leaves, Yes, Fresh, Tender, Hill-Grown, Fragrant "SALADA" Tea Leaves

Costs no more than common-place teas.

## CANNOT DECIDE AS TO WHETHER KRUGER SUICIDED OR NOT

There seems to be a considerable amount of mystery surrounding the death of Adolph Kruger, the young German who was killed early Monday morning by the C. N. R. train. Considerable evidence was taken Monday night by the jury that had been empaneled by Coroner Fortin to inquire into the death of the young man. Whether he came to his death through accident or whether it was a case of deliberate suicide has not been decided and the jury brought in an open verdict.

It is not thought for one moment that there was any foul play as there was \$80 dollars cash found on his person after the accident and he also had \$700 deposited to his credit in one of the local banks, and from papers found on him it appears that he had loaned \$500 to a farmer at Hector, Minn. He also owned a farm in the vicinity of Edmonton and lots in Edmonton and North Battleford.

Louis Bear, a man who had roomed with the deceased for three weeks stated Monday night that Kruger seemed to have been brooding and worrying over something. The deceased did not drink and used to be of a very jolly and bright disposition.

The last one to see the deceased alive was the proprietor of the Stanley rooming house, where Kruger had been staying. He engaged a room shortly before 11 o'clock Sunday night and appeared to be in an excited condition. The proprietor states that he saw the deceased under prior to going to bed that night but states that he did not see him leave the house again.

The effects of the deceased will be handed over to the National Trust Co. for administration.

## Billiousness

When the liver refuses to work there is no more like the combination of dandelion, senna and other ingredients in Parnelle's Pills. They bring help to the liver and stomach, get the bile flowing, and the system is cleared up.

Parnelle's VEGETABLE PILLS. DR. A. W. CHASE'S CATARRH POWDER 25c. It is sent direct to the diseased parts by the Improved Catarrh Powder. It cures the catarrh of the bladder, urethra, and prostate, and the catarrh of the bladder, urethra, and prostate.

## Curing Husbands of Drink

Are you worn out and discouraged trying to get them sober and keep them that way? Do they promise they will stop and then go out and drink again? Do you realize they do not decide you and themselves being drunk. You wives of drinking men can have sober husbands and sons if you will send them to the Neal Institute. The Neal treatment is a safe, sure, vegetable remedy that will remove the craving for drink in three days without the use of hypodermic injections, and restore your husband or son to sobriety or usefulness.

Write, Phone or Call, and learn how it is done. J. F. PHILIP, City Passenger Agent. Phone 4057 153 Jasper Ave. E.

## Residents Near New Market Not Impressed With Site or Building

The residents in the vicinity of the new market are not very well satisfied with the site and do not even like the appearance of the proposed building. A delegation waited on the council at last night with a view to having steps taken to have the building moved to a site at the corner of the street and Main street at the same time. Alderman Cuddeback explained that the council wanted to do this last year, but had several meetings of the council that the increase in the value of the property should be sufficient to warrant the property owners living a

portion of their lots for this purpose. He said that the city offered part of the market square if they could agree, but nothing was finally done. Alderman Cuddeback said that there are several members on the council this year who are not conversant with the action of the last council and suggested that this question should be reconsidered. The question of the market was then referred to the committee of parks and markets and Commissioner Harrison.

## COUNCIL DEVOTING ALL TIME GETTING BYLAWS IN SHAPE

The various motions before the council have not been taken up, but the council has not yet held a meeting to give the first reading. The time was first extended to the 10th and this was not sufficient, a second extension was voted, giving the council the privilege of holding a meeting at any time necessary. Much of the time at the disposal of council last night was taken up in a discussion of the proposed municipal elections and the proper location of the municipal council. When these two subjects were discussed from the assembly Alderman Smith, Cuddeback and Douglas retired from the council chamber, leaving the remaining of the business and the arranging for the vote in some to the balance of council.

The municipal committee, as proposed by the mayor, met with considerable discussion, and after a long and at times a very heated debate the project was carried and referred to the commissioners to arrange the details. The commissioners were also asked to prepare a report on the subject of the project and the mayor's casting vote was required to carry the scheme. In setting out the necessary for such a publication, the mayor took occasion to criticize the Bulletin for its unsatisfactory report. He said that the editorial from that paper, the mayor declared that it is rapidly becoming the chief enemy of the city.

The idea of operating a municipal cemetery was approved by council, but after a little of words over the site or sites, which practically every member of council had something to say, the matter was laid over for a week.

The overcrowded conditions obtaining during the recent past gave rise to the having submitted, as there were not enough spectators to fill all the chairs at last night's meeting.

The oldest living school teacher in New York State is said to be Mrs. Perry Biers. He is now 91, retired from his profession 10 years ago, after having taught for 62 years.

## ACID STOMACHS ARE DANGEROUS

Nine-tenths of All Stomach Trouble Said to Be Due to Acidity.

A physician's advice on Cause and Cure.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach, or acid stomach, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of certain highly concentrated medicines, which, by neutralizing the acidity of the food, remove the source of the trouble. He contends that it is as foolish to treat the stomach if it is to be cured as it is to treat a man who is suffering from indigestion on the foot without first removing the tack. Remove the tack and the foot will heal itself—remove the acidity and the stomach will heal itself. The inflamed lining of the stomach will then heal itself. Sufferers from acidity of the stomach should get a small bottle of liquidated medicine from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, until the acidity is removed. The doctor has found most efficacious in all cases.

LINEUP OF CHICAGO FEDERALS  
ANNOUNCED BY MANAGER TINKER

Tinker Has Gathered Speedy Outfit and Expects Team to Be a Pennyant Contender.

Chicago, March 4.—The line-up of the Chicago Federals was announced today by Manager Tinker. It was the first of the team to be announced completely. Tinker declared himself satisfied that the team would be a pennant contender, and said it would make up for other deficiencies, as he has fast, swift men, Jackson, who led the Northwestern league in stolen bases last year, Cad Cole, who led the New York state league in stolen bases and stole twenty-five bases; Max F. Jackson, who hit for an average of .352 and stole forty-two bases in the Three-I league, and John Maudsley, a ten-second man, who played with the University of Minnesota team last year, as well as other fast runners.

Ad Brennan and Claude Hendrix will do the work of pitching staff. The Northwestern team did not get beaten after all, though he will go south with Tinker's team in being training, later in the month.

Federal league leaders said the team was a good one for an out-of-town organization which had not had time to get

EDMONTON ASSOCIATION FOOTBALL  
LEAGUE HOLDS ANNUAL MEETING

Officers For Year Elected—Referee's Fees Remain Same—Admission Fee to Senior Games Raised—Defaulting Teams Will Have to Pay.

Some thirty representatives gathered at the Y.M.C.A. last night for the Association Football League. Practically every club in the city was represented, and several new ones. W. Irwin, of the Caledonian club, occupied the chair.

The secretary, Mr. Tom Davies, read the annual report, and stated that while last season had been a financial year for the league, and attributed the fact to the small collection of the previous season. A recommendation was made that more attention be paid to this feature of the league, and that persons should be appointed to see that collections were taken up at intermediate games as well as at the final ones. The referee's fees will be the same as last year, \$2 and \$2, and the admission fee will be raised to \$1.00 for all games. Any team defaulting a game, without having given three clear days' notice, will be fined \$10 for senior and \$5 for intermediate, to cover expenses.

Mr. Tom Davies was again appointed secretary-treasurer, and will have the assistance of a management committee or assistant secretary to

VANCOUVER WINS  
FROM VICTORIA  
AT WINNIPEG 8-6

Coast "Pro" Teams Failed to Make Impression in Prairie City.

Winnipeg, March 4.—The exhibition professional hockey match here tonight between the Victoria Stanley cup champions and the Vancouver seven failed to create such an impression upon Winnipeg fans. The Vancouver team won the game by a 6 to 4 score, but the crowd was small and the game was not as exciting as the previous one. The Vancouver team was a great handicap for the players, they being unable to show their usual speed, but the exhibition as a whole was a distinct disappointment to the 2,500 enthusiasts who watched the play. Only in the last period did the players create much excitement when goals came thick and fast.

"Cyclone" Taylor was the best man on the ice and his spectacular skating greatly pleased the crowd. Charlie Tobin and Neighbor also showed splendid form in the final period. The style of play was much in the form shown by the amateur here the checking not being nearly as hard while the professionals were weak in their shooting compared to that shown by the local amateurs. The professionals displayed some pretty slick handling and gave some nice combination plays but showed little inclination to exert themselves. The coast offense rule of the forward pass in the center of the ice took very favorably with the fans.

Referee—Billie Field.  
Judge of Play—Harney Holden.

Many a ballplayer has held three lines, but the around-the-world tour has had the pleasure of seeing one.

FASHION CRAFT  
GAME TONIGHT  
ARENA RINK 8.30

Eskimos and Dominions Clash in City Championship Series Both Teams are Fit.

Tonight at the arena rink at 8.30, the Eskimos and Dominions will meet in their first game of the Fashion Craft series, and as both teams have been practicing hard and keeping in the best of shape, and the ice will be in pretty fair condition, a good game may be looked for, as the old rivalry still exists between the two teams, each believing to be the best.

The fact that the Dominions have had in view the Allan cup, and have been particularly careful to keep right up to the mark physically, while the Eskimos are said to have been somewhat careless in that matter, to a certain degree, leads one to believe that the Dominions have a pretty fair chance to slip one over tonight, and it would not be a great big surprise if the same happened.

The teams will lineup in their regular order, with the possible exception of Charlie Reid in goal for the Eskimos, whose place may be taken by Rusty Allan, the old-time guardian of the Eskimos' net. The usual four-minute cur service will be in operation to the rink and a large crowd is expected. The fans tonight will have an opportunity of seeing the Dominions in action and size up their chances for lifting the Allan cup at Winnipeg. The lineup follows:

Eskimos	Dominions
Goal	Court May
Allen or Reid	Point
Muirhead	Cover
Duncan	Lloyd Cook
	Rover
Lynn	Stanley
J. Sutherland	Blair
Dea	Manners

BOMBARDIER WELLS  
DID FOR BANDSMAN  
BLAKE, FOUR ROUNDS

London, March 4.—Bombardier Wells, former British champion heavyweight pugilist, last night knocked out Bandsman Blake, the middle weight champion, in fourth round of what was intended to be a 25-round fight.

The contest has aroused great interest in sporting circles. Blake previous to the encounter had not been defeated and was marked by many as the white hope for winning the world's heavyweight championship. At the weighing in Blake was 25 pounds lighter than Wells.

O. H. A. FINALS.

In the intermediate semi-final O. H. A. last night, Berlin beat Orilla 7-4. The final game for the championship will be played at Orilla Friday night. The Orilla Juniors are also in the finals with Belleville or Oshawa, and are in a fair way to repeat their performance of last year and win the championship.

To be runner-up in two divisions of the O.H.A. is a rather unusual occurrence for any town or city, and Orilla stands a good chance of annexing both championships.

## Y.M.C.A. PROGRAMME

Wednesday.

4.15 to 5.15—Junior school boys' swim period.

5.15 to 6.15—Senior business men's class.

A boy missing two lessons in succession will have his place filled from the waiting list.

A limit of 20 members is placed on each class.

Only those who attend the signalling, life-saving (land drill) or first aid will be entitled to enroll in the swimming classes.

Enroll today, March 4th.

We have been awaiting with some curiosity to discover why Willie Ritchie won't fight this time. The latest line is to ask more money than any one has.

THREATENS GREAT  
BASEBALL WAR IF  
SHOWN DISREGARD

President Gilmore of Federal League Says Organization Is Ready to Fight.

Cleveland, O., Mar. 4.—The announcement at Chicago of President Gilmore of the Federal League, that his organization would start the greatest baseball war in history if the old leagues disregard Federal League contracts, last night met with this statement from President C. W. Somers, of the Cleveland American club.

"We will fight to a finish to retain Pitcher Blanding. I have agreed to sustain all court costs if the player is involved in a legal battle."

It was Somers' statement today that he had induced Blanding to jump to Cleveland from the Federal League after Blanding had jumped from Cleveland to become a Federal that helped to precipitate Gilmore's manifesto.

It is said that in case Blanding is enjoined from playing with Cleveland his salary is guaranteed. The amount of his salary with Cleveland and the extent of his contract are not known. The recent raid by which the Federals took Pitchers Falkenberg, Koehler and Blanding from Cleveland left that club without a single right handed pitcher.

## RUGBY BANQUET

Invitations are out to members of the Edmonton Rugby team and executive of 1915, for a banquet to be held in the Hudson Bay store, Saturday evening at 8.30. A grand time is expected.

WILL ORGANIZE AMATEUR LACROSSE  
TEAMS AMONG BOYS OF EDMONTON

Canadian Amateur Lacrosse Association Plans Extensive Program Along These Lines—Joe Lally of Cornwall will Visit City on Work

We publish herewith a letter from Rev. A. E. Hayden, secretary-treasurer of the Canadian Amateur Lacrosse association, which every one will do well to read and lend support to the very worthy cause in the interest of establishing amateur lacrosse teams among the boys and men of this city. Mr. Hayden also requests a number of names of men interested in the lacrosse movement, and we advise anyone so interested to either write to him direct, c/o Saskatoon Y. M. C. A. or send your name to this office, c/o Sporting Editor, and same will be forwarded to him.

To the Editor, the Capital, Edmonton, Alta.:

Dear Sir:—The Canadian Amateur Lacrosse association which was organized in 1912 for the purpose of increasing the interest in lacrosse strictly along amateur lines, has started a campaign to place Canada's national game where it properly belongs—the national and leading game of Canada in reality instead of in name only, and I write to ask you to lend us your personal valuable assistance, and also your support through the medium of your paper in assisting us in our good work.

We wish to establish school lacrosse leagues as well as industrial leagues in every town where the population is large enough to justify the two, and where it is not we wish to have lacrosse played in the schools.

Our association has arranged with Mr. Joe Lally, lacrosse manufacturer of Cornwall, to supply us with lacrosse sticks at less than one-half the ordinary price paid for lacrosse sticks, and besides granting us the above concession he has agreed to present to every town throughout Canada, where a sufficient number of teams can be organized, twelve beautiful gold medals for competition.

Mr. Lally intends visiting Alberta this month for the sole purpose of organizing school lacrosse leagues, and if a league can be formed in your town, I will be pleased to have him visit you, so that you can arrange with him to have a talk with the boys in your schools and help with the organization of the league. I will appreciate it very much if you will put your shoulder to the wheel and assist us in every possible way that lies in your power.

Sincerely yours,  
A. EUSTACE HAYDEN,  
SECRETARY-TREASURER.

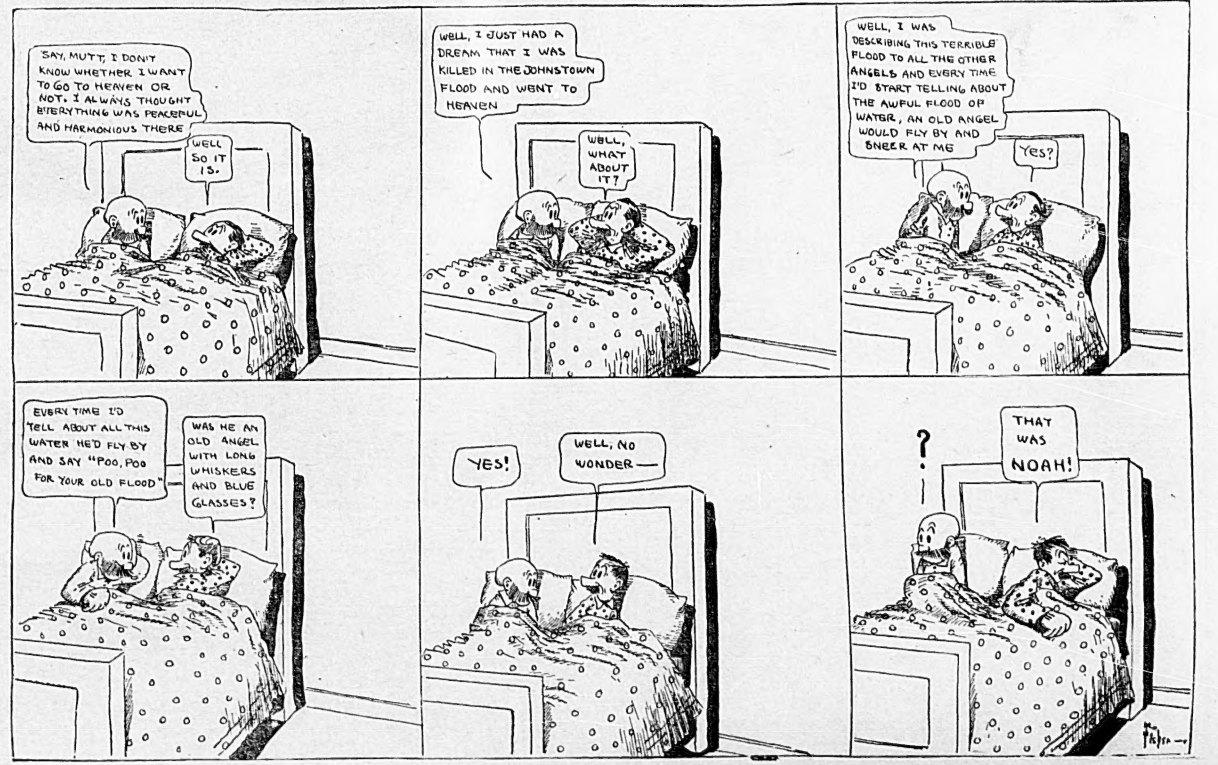

DRAWS MADE FOR  
INTERNATIONAL  
LAWN TENNIS CUP

New York, March 4.—The draw of the six nations challenging the United States for the Davis International lawn tennis cup was made today by E. B. Wren, chairman of the American committee assisted by G. T. Ashe, Germany and France drew boys in the first round. Australia and Canada were coupled on the brackets of the first round in the top half and the British Isles and Belgium were drawn against each other in the lower half. Germany will meet the winner of the Canada-Australia matches and France will meet the successful nation of the British-Belgium series.

Wren and Ashe, at the completion of the draw at once began negotiations by phone and telegraph with Boston, Chicago and Philadelphia to decide upon the dates for these matches, which probably will be announced tomorrow.
